0045洛谷P5749 最厉害的学生

```
#include<iostream>
#include<string>
using namespace std;

struct S {
    string name;
    int c, m, e;
    int sum() {
        return c + m + e;
    }
};

int main() {
    int N;
    cin >> N;
    S a[1002];
    for (int i = 0;i < N;i++) {
        cin >> a[i].name >> a[i].c >> a[i].m >> a[i].e;
    }
    S max = a[0];
    for (int i = 1;i < N;i++) {
        if (a[i].sum() > max.sum()) {
            max = a[i];
        }
    }
    cout << max.name << " " << max.c << " " << max.m << " " << max.e << endl;
    return 0;
}
```

完整代码

```
#include<iostream>
#include<string>
using namespace std;

struct S {
    string name;
    int c, m, e;
    int sum() {
        return c + m + e;
    }
};

int main() {
    int N;
    cin >> N;
    S a[1002];
    for (int i = 0;i < N;i++) {
        cin >> a[i].name >> a[i].c >> a[i].m >> a[i].e;
    }
    S max = a[0];
    for (int i = 1;i < N;i++) {
```

```
        if (a[i].sum() > max.sum()) {
            max = a[i];
        }
    }
    cout << max.name << " " << max.c << " " << max.m << " " << max.e << endl;
    return 0;
}
```
